Documentation for Betslip Functionality on bet365

Overview

This documentation provides an overview of the Cypress test cases for testing the betslip functionality on bet365. The tests are written using the Gherkin language and follow the Page Object Model (POM) design pattern for better maintainability and readability.

Test Scenarios

The following test scenarios are covered:

1. Adding a bet to the betslip.
2. Removing a bet from the betslip.
3. Updating the stake amount in the betslip.

Documentation for Betslip Functionality on bet365

Overview

This documentation provides an overview of the Cypress test cases for testing the betslip functionality on bet365. The tests are written using the Gherkin language and follow the Page Object Model (POM) design pattern for better maintainability and readability.

Test Scenarios

The following test scenarios are covered:

1. Adding a bet to the betslip.
2. Removing a bet from the betslip.
3. Updating the stake amount in the betslip.

Test Cases

1. Adding a Bet to the Betslip

Feature: Betslip

Feature: Betslip
  As a user
  I want to add a bet to the betslip
  So that I can place a bet on a sporting event

  Scenario: Add a bet to the betslip
    Given I navigate to the bet365 homepage
    When I click on the Sports tab
    And I select Football
    And I pick Premier League
    And I add a match bet to the betslip
    Then the bet should be added to the betslip

2. Removing a Bet from the Betslip

Feature: Betslip

Feature: Betslip
  As a user
  I want to remove a bet from the betslip
  So that I can modify my bet selection

  Scenario: Remove a bet from the betslip
    Given I navigate to the bet365 homepage
    When I click on the Sports tab
    And I select Football
    And I pick Premier League
    And I add a match bet to the betslip
    And I remove the bet from the betslip
    Then the betslip should be empty

3. Updating the Stake Amount

Feature: Betslip

Feature: Betslip
  As a user
  I want to update the stake amount in the betslip
  So that I can see the updated potential returns

  Scenario: Update the stake amount
    Given I navigate to the bet365 homepage

When I click on the Sports tab
And I select Football
And I pick Premier League
And I add a match bet to the betslip
And I update the stake amount to 50
Then the stake amount should be updated
And the potential returns should be updated accordingly

Conclusion

This documentation outlines the Gherkin scenarios and the implementation using the Page Object Model for testing the betslip functionality on bet365. By following this approach, the tests are more organized, reusable, and easier to maintain.
